

GREENS LIAISON REPORT – June 2022

Dear Members

- Not much to report at this month – cutting operations in full swing and members have commented on how good it's looking.
- Contractor still to finish landscaping the cages, rock etc at 2nd hole but no firm date at the moment
- Head Greenkeeper has advised that he had tried re-seeding the GUR in front of 12th hole pond three times. In the Autumn he proposes to dig it over and re-turf. If that doesn't work, he is considering installing bunker to this area.
- The "oversized" red stake at the back of the 12th hole was a temporary fixture and has been replaced with standard size.
- Shrubs have been planted on bank at rear of 12th green.
- All tee signs have had grass trimmed around the base.
- Grass around distance markers on tee boxes has been trimmed.

Please do not hesitate to contact me during the year with any further queries regarding the course.

Yours
I MacDonald
